² For a breakdown of the Other Authorizations refer to the Ministerial Appropriations.

³ This schedule differs from other Operating Expenses' schedules and statements. Amounts for Votes as voted on in the Legislative Assembly are compared against spending for the votes in this schedule. Special Accounts spending and other Statutory Appropriations spending are not included in this schedule unless the Statutory Appropriation was applied to a vote. All amounts that are part of the Contingencies (All Ministries) and New Programs Vote are showing as part of the Contingencies and New Programs vote, whereas in other schedules the budget is reallocated to the program to show total spending for that program. See Schedule of Comparison of Estimated Expenses to Actual Expenses in the Public Accounts for a complete listing of ministry spending. These amounts do not include adjustments to prior year's accrual.

Actual demands and spending may not entirely accord with those original plans. Amounts are, therefore, voted in the Legislative Assembly at the Vote level and ministries and special offices are free to move budget within the constraints of the total vote to accomplish the primary goals of the vote. Spending variances within a vote frequently represents such a reallocation of budget between programs.

The Budget provided to the Legislative Assembly presents the plans of a ministry or special office to a program level of detail and is based upon anticipated activities at the beginning of the year. Actual demands and spending may not entirely accord with those original plans. Amounts are, therefore, voted in the Legislative Assembly at the Vote level and ministries and special offices are free to move budget within the constraints of the total vote to accomplish the primary goals of the vote. Spending variances within a vote frequently represents such a reallocation of budget between programs.

The Budget provided to the Legislative Assembly presents the plans of a ministry or special office to a program level of detail and is based upon anticipated activities at the beginning of the year. Actual demands and spending may not entirely accord with those original plans. Amounts are, therefore, voted in the Legislative Assembly at the Vote level and ministries and special offices are free to move budget within the constraints of the total vote to accomplish the primary goals of the vote. Spending variances within a vote frequently represents such a reallocation of budget between programs.

	<u><u>17,816,263</u></u>		

The Budget provided to the Legislative Assembly presents the plans of a ministry or special office to a program level of detail and is based upon anticipated activities at the beginning of the year. Actual demands and spending may not entirely accord with those original plans. Amounts are, therefore, voted in the Legislative Assembly at the Vote level and ministries and special offices are free to move budget within the constraints of the total vote to accomplish the primary goals of the vote. Spending variances within a vote frequently represents such a reallocation of budget between programs.

The Budget provided to the Legislative Assembly presents the plans of a ministry or special office to a program level of detail and is based upon anticipated activities at the beginning of the year. Actual demands and spending may not entirely accord with those original plans. Amounts are, therefore, voted in the Legislative Assembly at the Vote level and ministries and special offices are free to move budget within the constraints of the total vote to accomplish the primary goals of the vote. Spending variances within a vote frequently represents such a reallocation of budget between programs.

The Budget provided to the Legislative Assembly presents the plans of a ministry or special office to a program level of detail and is based upon anticipated activities at the beginning of the year. Actual demands and spending may not entirely accord with those original plans. Amounts are, therefore, voted in the Legislative Assembly at the Vote level and ministries and special offices are free to move budget within the constraints of the total vote to accomplish the primary goals of the vote. Spending variances within a vote frequently represents such a reallocation of budget between programs.
