INTRODUCTION

CONSOLIDATED REVENUE FUND OPERATING EXPENSES

This publication provides summary and detailed Consolidated Revenue Fund expenses for each special office, ministry and other appropriation.

Expenses are classified by group accounts. These group accounts represent broad categories of expense (Salaries and Benefits, Operating Costs, Government Transfers (formerly Grants and Contributions), Other Expenses and Recoveries). Each group account is comprised of several specific components of expenses referred to as standard objects of expense. A descriptive listing of these standard objects is provided at the end of this publication.

The data is presented in a series of columns. The first column provides the total comparable expense for the 2000/01 Estimates. Each column thereafter provides 2001/02 expense detail by standard object of expense. Columns are headed by a numerical code which relates to a specific standard object of expense (refer to the table below). Sub-total columns are also presented to parallel the group account classification totals found in the *Estimates*. Where blanks appear within a column, funds have not been budgeted for that standard object or group account classification.

It is important to note that expenses by sub-vote, by group account and by standard object of expense are presented for information purposes only. While this information accurately represents the intended expense plan for the fiscal year, special offices and ministries may reallocate funds within a vote or special account or fund during the year.

CONSOLIDATED REVENUE FUND CAPITAL EXPENDITURES

This publication also provides details, by special office, ministry and other appropriation, for capital expenditures.

Capital expenditures are presented on the basis of the category of assets acquired, in a manner similar to operating expenses (by column, headed by an alphabetical code which relates to a specific standard object of capital expenditure). A descriptive listing of these standard objects is provided at the end of this publication. The amortization of the cost of assets is an operating expense (standard object 73).
